# ARCHGOLA™ SIGNATURE

## Proven Quality

We believe quality is the single most important consideration in a canopy.

Our pre-galvanised steel frames, built from high quality New Zealand-sourced steel, are structurally engineered to withstand high wind zones while the Suntuf polycarbonate roofing offers 99.9% UV protection.

## Your Choice of Style

Every Archgola™ is unique and designed to your style and specifications, ensuring your Archgola™ suits your home and your lifestyle.

We truly believe one size doesn't fit all and that's because your home and the way you live in it is unique. Our range of roof designs can complement and enhance the way you live in

your home and can be adapted to fit your outdoor space. Every Archgola™ is custom designed to your unique requirements, easily going around corners, spanning large outdoor areas and helping you make the most of your outdoor living space. Choose from a variety of roof lines, roof tints and a range of approx. 50 Dulux colours for your powder coated frame.

## Outdoor Blinds

We've kept our outdoor blinds simple – there are no buttons, zips or clips. Instead, two aluminium channels position the blinds perfectly. Once wound down and tensioned gaps are eliminated to prevent unwanted draughts. Our Ezi Guide blinds come with stainless steel fittings and a unique locking system, providing you with quality in both appearance and performance.

## Year Round Protection

Whether you're seeking shade from New Zealand's harsh UV rays or shelter from the winter wind and rain, Archgola™ provides you with more protection all year round.

## Trusted Installers

Our team of licensed Archgola™ installers cover the depth and breadth of New Zealand and are on hand to answer any questions. You'll receive a free on-site consultation, measure and quote and, when you're ready to proceed, they'll ensure the installation of your Archgola™ is hassle-free. Installation is usually completed in just one day.

## Designed for Your Home. Built to Last.

Your Archgola™ will withstand our changing weather systems.

We use only the best quality New Zealand sourced pre-galvanised steel to manufacture our Archgola™ steel frames and fittings.

Our design criteria meet Building Code NZ3604 (IL1) and is aligned with AS/NZ1170 Structural Design Standards. Design methods are certified by an independent structural Engineer.

Each frame provides the stability and structure to ensure your Archgola™ is built to last.

For superior structural stability Archgola™ installation includes multiple fixing points to the house. Flashing between the roof and Archgola™ along the gutter line ensures quality finished look.

### Benefits of Archgola™

Steel framing is a great option for a canopy due to its strength.

This means spans can be longer and posts set further apart. Our framing is connected with a unique series of specially designed fittings to ensure maximum strength whilst maintaining an attractive finish.

Our two-step powder coating offers superior durability and corrosion protection, exceptional resistance to chipping, scratching and wear and ensures the frame is highly resistant to moisture/corrosion creep if damaged.

Regular cleaning is also key for a long-lasting frame. If your property is coastal or in a corrosive environment, we recommend requesting a Hot Dip Galvanised treatment.

The Suntuf roofing provides 99.9% UV protection for your family and furniture, car or camper along with protection from hail damage.

With warranties up to 25 years, along with thousands of installed canopies across the country, we stand behind the proven quality of our Archgola™.

# WHAT OUR CUSTOMERS SAY

We hope you are proud of your new canopy. Here's what other Archgola™ customers have told us.

*"We are absolutely rapt with the Archgola and it is exceeding expectations. The guys who installed it were professional and efficient workers who left no mess and did a great job. I would certainly recommend Archgola to my friends and family." - Central East NI*

*"Our carport looks amazing, I am loving the look and the cooling shades the carport provides. An instant increase in our house value. I would definitely recommend you guys." - Central Auckland*

*"Thanks so much for the Archgola canopy, we should have done this years ago. Now we have the extra room we can make use of those warm nights." - New Plymouth*
